

AKITA CLUB OF AMERICA

SHOW COMMITTEE

POSITION OUTLINES

EMERGENCY COORDINATOR

GENERAL INFORMATION

The Show Chair must complete the Disaster & Emergency Form (one for conformation, obedience & rally and a separate one for Agility) This form is submitted to the AKC along with the Specialty Applications. The information can be obtained from someone that lives in the area or from the Host Hotel or through the Site Coordinator

Obtain a copy of the above document from the Show Chair

The Emergency Coordinator should call the emergency vets in the area and make sure they are equipped to handle large dogs in gastric torsion

We may require two separate vets – one that is available during regular hours and an emergency vet that is available at night

The Emergency Coordinator will insure that clear and concise directions to the vet are available for the Premium List

The Emergency Coordinator will prepare a handout for exhibitors when they check into the hotel that contains the directions to the vet clinics, phone numbers for the vet clinics and a clear map, as well as phone numbers for the police, fire department, hospital and directions to the hospital

Approximately 2 weeks before the Specialty – call the vet clinics and remind them of our Specialty dates and when exhibitors will be arriving
