

# AKITA CLUB OF AMERICA

## SHOW COMMITTEE

### POSITION OUTLINES

#### RV PARKING

#### GENERAL INFORMATION

Check with the Site Coordinator how much space is available at the show site. Most show sites will have a parking area that can be used to park RVs but these spaces will be unserviced so RVs will have to be completely self-contained

Check the area close to the show grounds for alternate RV parking areas for those people that wish to park off site. The ACA will not recommend alternate parking but we should make the information available

Pricing for parking on the show site is set by the Show Committee

Rules & Regulations pertaining to on site parking:

- ❖ There will be no generators operated between quiet hours which will generally be 11pm to 6am
- ❖ Vehicles containing dogs that will be left overnight unsupervised will not be allowed to park in the RV section
- ❖ Dogs are not to be left outside in pens during quiet hours – other people want to sleep
- ❖ All RVs **MUST** be self contained
- ❖ Arrangements can be made by the Site Coordinator for a “honey wagon”
- ❖ All RVs **MUST** have a valid parking permit
- ❖ Xpens should be set up so as not to destroy grass areas – matting underneath if applicable
- ❖ Ask the Site Coordinator at what time the area is available for parking

Make sure you are on site before parking is open to reservations to plan the area – a chart of who is parked where should be given to the Show Chair

Receive the reservations & make sure everyone is aware of the regulations
